

DEMOCRATIC NOMINATIONS.

For Recorder, Allen County,
PLATT J. WISE.
County Commissioner, 3rd District,
JOHN SHAFER.
District Attorney, Common Pleas,
JOSEPH S. FRANCE.

Fort Collins Sentinel.

SATURDAY, SEPTEMBER 21, 1890.

Immense Mass Meeting.—The republicans of this county, to the number of nearly 20, assembled at the Court house last Saturday, and adopted sundry resolutions, declaring among other things that the republican party was established for the avowed purpose of restoring the nation to the principles of the principles of Washington and Jefferson. This will be news to most of our readers, and to none more than the republicans themselves. If such was the design of the party it has most signally failed, for there has never since the creation of the government existed a more corrupt party, or one whose principles and actions departed more widely from the purity which distinguished the early days of the republic. Two of the resolutions are devoted to the African gentleman in the field, and modestly intimate, without exactly saying so, that the republicans of Allen County are better judges of what ought to be done in the territories than the inhabitants thereof, and therefore our representatives in Congress ought to regulate the affairs of the territory instead of allowing the people to decide the nature of their own local institutions. This we presume is the republican idea of the principles of Jefferson.

No nominations were made, but the County Committee is to meet at the Republican office to-day and decide who are to be the candidates. It is probable that three or four will meet and then upon themselves to say what shall be the fortunate man, and they will be presented to the world as regularly nominated candidates of the party. Such are republican ideas of popular rights and popular sovereignty. They can even allow their people to be the choice of the candidates they are to vote for.

The State Sentinel appears considerably distressed at the action of our convention in denouncing the arbitrary conduct of Gov. Willard towards us in refusing to confirm the action of the County Committee in locating the Penitentiary at Fort Wayne, because it interfered with our political operations or arrangements of business. "This," it says, "it appears to be the long and broad of the political principle of a portion of the Democracy of Allen County, and the price of the political favor." This is a very curious statement, and it is not clear to what the political principle referred to is. It is not clear to what the political principle referred to is. It is not clear to what the political principle referred to is.

Mr. H. H. is a pleasant speaker, there are few who exceed him in purity of language and excellence of arrangement. He attacked the Republican party by denunciation, as is the custom of some of our orators, but by an array of facts, irresistible to an unprejudiced mind. He was not only a gentlemanly speaker, but a man of great force and energy. He was not only a gentlemanly speaker, but a man of great force and energy. He was not only a gentlemanly speaker, but a man of great force and energy.

Gubernatorial.

HON. T. A. HENDRICKS, late Commissioner of the General Land Office, and a prominent candidate for Governor of this state, was in our city on Monday last, and was called upon by many of our leading citizens. He has visited several portions of the state and feels encouraged to believe that the democratic party is not only strong but is gaining strength, will give a united and unanimous vote next year for the nomination of the Charleston Convention, and will roll up even a heavier majority than we gave Buchanan. Mr. Hendricks' chance for nomination is good; whether he makes hosts of friends by his genial unaffected courtesy, sterling good sense, and undoubted ability. We see favorable notices of him by the press in every place he visits. Without wishing to disparage other candidates, we must say that he has every requisite qualification to make a good and popular Chief Magistrate. His great talents, devoted attention to business, unflinching democracy, and irreproachable private character point him out as the man for the station, and one who would give our state an enviable reputation abroad. Another thing which especially commends him to favor here, is the interest he has taken and the efforts he has made to secure to us the location of the Penitentiary. Had he been Governor we should not have had to complain of the injustice and disregard of law which has so far prevented the commencement of this work, in which our citizens feel so deep a concern. He deserves our support, and we believe by aiding his nomination we should subserve the best interests of the state.

Mr. Hendricks addressed a Democratic meeting at Crawfordville on the 10th inst. The Review says of his speech:

An Editor in Luck.—A. C. THOMPSON, Esq., editor of the Huntington Democrat, was married on the 15th inst., at Plymouth, to Miss CHRISTINA L. PATRICK, of this place.

The editor, in his paper, says that he was "thorough" and partook of the good things on the occasion—which we presume, he did; and he also sincerely wishes the happy couple a thousand years of uninterrupted prosperity and bliss.

Why Want a Constitutional Convention?—1st. The republican interest, who do not believe in wholesale restriction and individual responsibility. 2d. The Know Nothing, who want something like the Massachusetts amendment. 3d. The Main Line law, who want an express provision to authorize the passage of a pro-slavery law. 4th. The Abolitionists, who do not believe in the expediency of negroes coming into the state.

Gen. Scott Going to San Juan. Washington, Sept. 16. Gen. Scott left here this P.M., for New York and will sail on the Steamer of the 20th for the Pacific. The present delicate and complicated state of affairs in the Pacific requires that the President should be in person, and the Gen. is going to San Juan to see the situation and to see the situation and to see the situation.

The Herald's Washington correspondent says: A messenger was dispatched this evening with instructions to General Scott. Our Government has been very anxious to see the situation in the Pacific, and the Gen. is going to San Juan to see the situation and to see the situation and to see the situation.

The Convention.—A Misstatement. The Republican Central office is making the statement that the Convention will be held in the city of Washington, and that the Convention will be held in the city of Washington, and that the Convention will be held in the city of Washington.

The sessions of the Zurich Conference have been continued. The expression in favor of appointing the delegation at this time, was decided. The arrangement of the delegations to a future day, was not an easy matter, and we expected to see no little discussion, but the fact that interests appeared to be so divided, and that the result, as a whole, was so harmonious, and that all agreed to abide the result, augurs well for the harmony and union of the party hereafter.

The National Assembly of Parma opened on the 7th inst. with great solemnity. Mr. Farini, the Dictator, delivered an address, in which he reviewed the history of the Republic, and announced the appearance of a great foe. Several French journals have been prohibited in France in consequence of advocating the war against the Republic. The National Assembly of Parma opened on the 7th inst. with great solemnity.

discussed State politics and considered what it is their duty to do in the present condition of their relations with the majority of the Republican party. The result of these deliberations was the adoption, by each club, of a resolution declaring that they will not support Randall. The consequence of this resolution was the drawing up of an address for circulation throughout the State, advising all German Republicans to withhold their support from Randall. Dropping the head, we understand it is their recommendation to support the balance of the ticket; but the intelligent Germans, we apprehend, will drop the entire thing as unbecoming. The German Republicans will never be at home—will never be treated with, reserved courtesy and be allowed due consideration—until they return into the Democratic household.
